

## SANITIZING TABS FOR CONDENSATION COLLECTION TANK

DESCRIPTION – SPECIFIC FOR AIR CONDITIONING SYSTEM (Fancoil, Split, UTA, Mobile units, etc.) AT LOW DISSOLUTION.

### 4 in 1

- Inhibits the bacteria
- Melt and degrade encrustations and slimes in condensations drains
- Reduces bad smell development
- Excellent antagonist against **Legionella Pneumophila**

### SAFETY

**KLIMA TABS SAFE** is enriched with BRONOPOL and guarantees wide spectrum of action, speed, safety and compatibility with different materials, as well as best efficacy on a wide range of installations.

\* DOES NOT CONTAIN very dangerous substances listed in the "Candidate list" published by ECHA (European agency of chemical substances) and complies with REACH (CE) 1907/2006. DOES NOT contain VOC complying with 2004/42/CE.

**KLIMATABS SAFE** is ready to use and harmless for man and environment. Does not contain OGM.

### HOW

**KLIMATABS SAFE** is a practical system since it is enough to remove the label and insert "BLISTER PACK" directly into the bowl to be treated placing the punctured part in contact with condensation.

DOSE: use one "BLISTER PACK" for each air conditioning. Repeat the treatment on the basis on humidity in the environment. Its consumption depends only on humidity.

cod. **2Y6008** Blister made up of 8 tabs of about 10gr each one.

1.

### PHYSICAL-CHEMICAL PROPERTIES

Aspect – color - odor	Solid white tab.
pH (water at 25° C.)	8 – 8,5
Specific weight	2.2 kg/dm3
